Accompanying the Recovery Journey

Recovering patients require a nurturing environment where they can recuperate with peace of mind. Studies have shown that a substantial number of adverse medical events involve falls. Placing particular emphasis on safety, the Qualitas Nx bed is designed to reduce the risk of incidents and provide superior care.

Ergonomic Side-rail Integrated Panel

Easy Grip Handle for Transportation

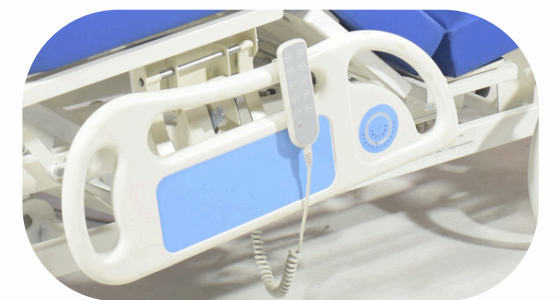

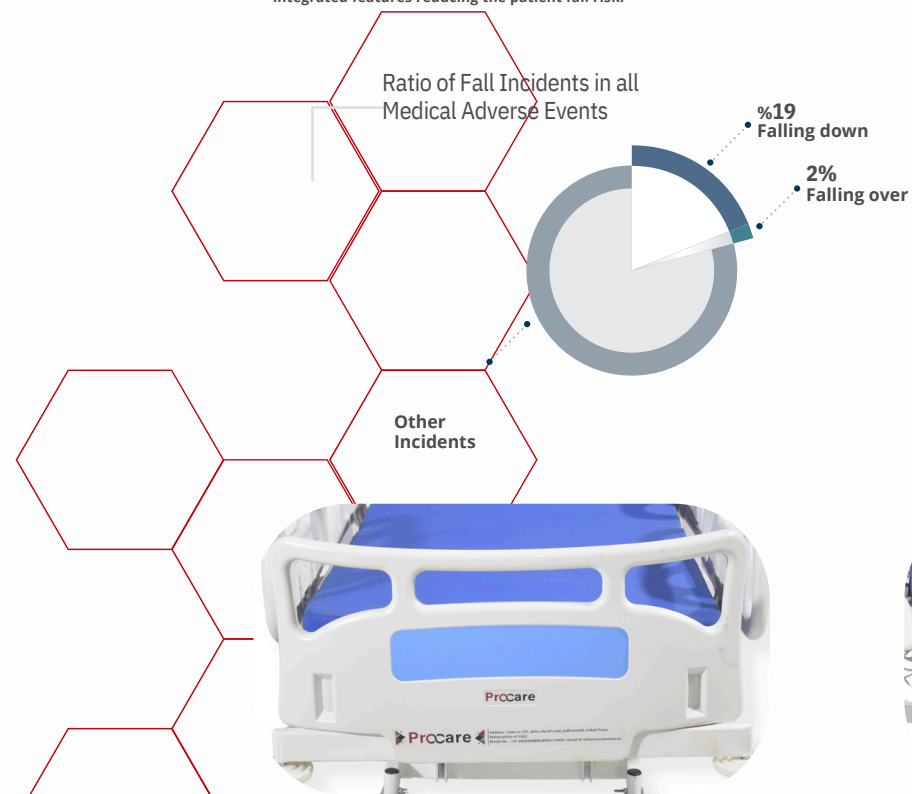

Full Length Side-rail

Create a Safer Environment

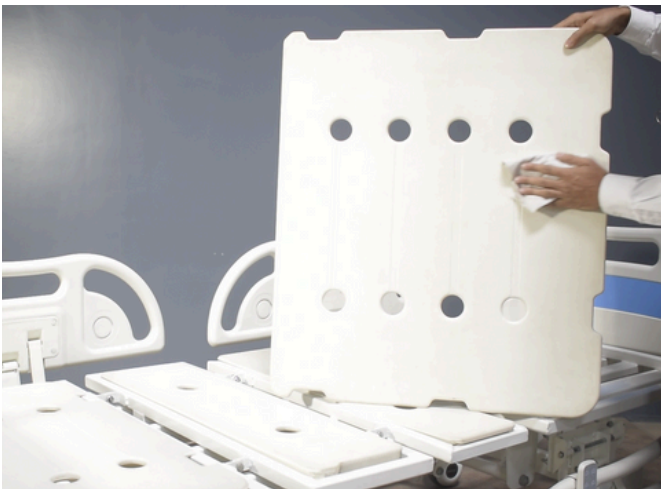

Fall Prevention

Accidents do occur, even in hospitals. Studies have shown that a substantial number of hospital-acquired conditions involve falls. Hence, PRO is provided with integrated features reducing the patient fall risk.

Infection Control

Removable Mattress Deck and Smooth Surface for Easy Cleaning

The mattress deck is designed to be easily removed* and wiped down. The headboard, footboard and side-rails are also designed with a smooth surface to facilitate cleaning and disinfection.

*Except for the head section with X-ray cassette

Provision for Disinfection

1% sodium hypochlorite diluent can be used for disinfection purpose.

Others

Accessory Rail

Accessory rails are located on the right and left sides of the bed. These rails can be used to hang accessories such as drainage bags.

Angle Indications

Real time angle indicators for:

- Head of bed
- Trendelenburg/ Reverse trendelenburg

Other Features

- Battery Backup
- X-ray imaging deck*

* Applicable for selected bed models only.

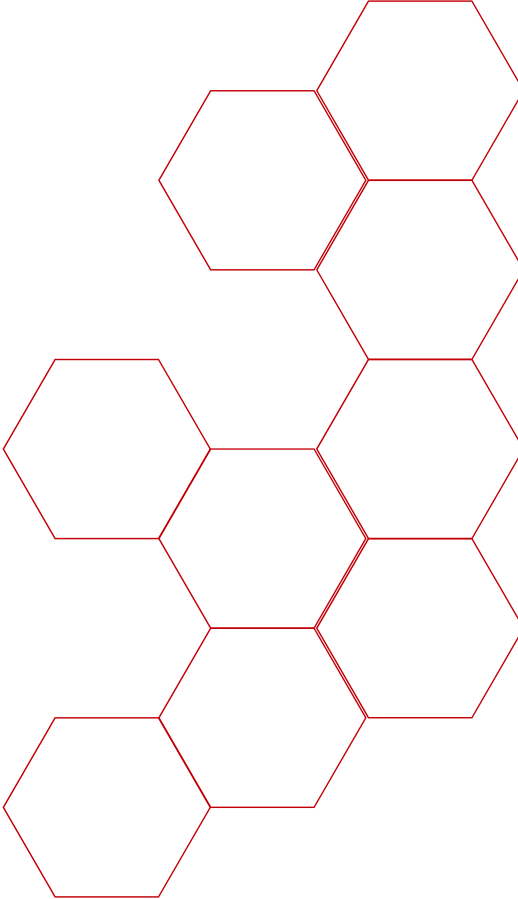

Mattress (optional)

- Waterproof
- Chemical resistant (sodium hypochlorite 1.0% diluent)
- Flame retardant
- MRSA antibacterial

Accessories (optional)

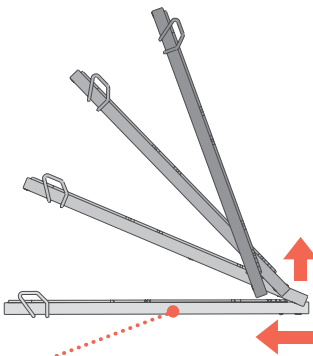

- IV pole
- Oxygen cylinder holder
- Extension mattress

Reducing Shear Force

Smart Raise

Smart Raise opens the bed at the point corresponding to the sacral region to reduce shear force and prevent abdomen compression.

Retraction:

- Upward: 4-cm range
- Backward: 13-cm range

Maneuverability

Easy Grip Handle

Our easygrip handles of the head/footboards facilitate transportation. Boards are lockable to prevent accidental removal.
