## Accompanying the Recovery Journey

### KEY FEATURE

During procedures, improved imaging and diagnostics are made possible by specially engineered eccentric base, and trouble-free motions of the C-arm.

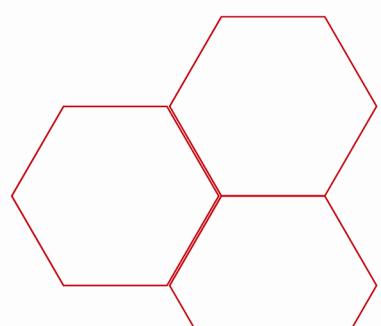

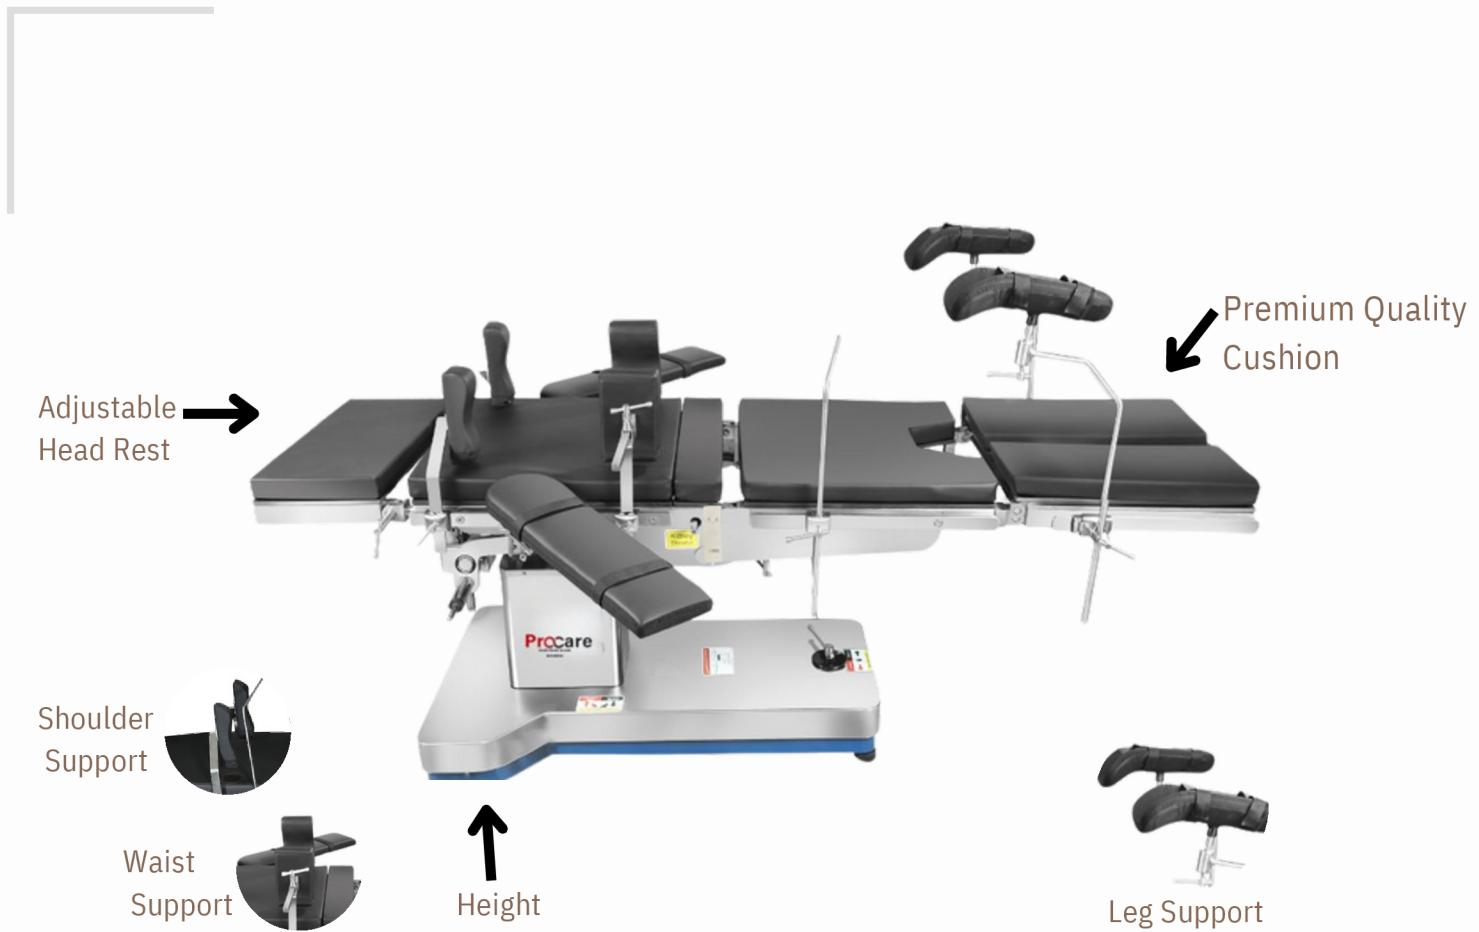

Our table is outfitted with strong and long-lasting pillars and Premium stainless steel fitting that provides stability and long life to the product

Our semi-electric bed allows interchanging its head and leg portions for better comfort and flexibility of the OT table

The kidney bridge plays an essential role in different surgical procedures, this OT Table comes with integrated kidney bridge option.

This semi-electric Operating table comes with a removable pelvis, leg, and head section which helps healthcare professionals adjust OT table as per the requirement and more comfort while performing the surgeries.

To maintain the Hygiene of the bed and OT room, the table is built using a stainless steel and washable cover.
